

## About CADENAS GmbH

Since 1992, CADENAS has stood for innovation, success and creativity. As an independent software provider, CADENAS develops customised solutions for the manufacturing industry.

In particular with the display of 3D CAD geometries, CADENAS has set the benchmark in mechanical engineering and plant construction.

Together with component suppliers, CADENAS creates CAD data that are then made available to component buyers in the form of electronic product catalogues.

The CAD data is accessible both via the online portal PARTcommunity, as well as via the Strategic Parts Management System PARTsolutions.

# The Digital Benchmark for Fasteners

The assembly and fasteners expert, Thomas Warburton, offers CAD data online for all customers. This CAD database has been made available in cooperation with CADENAS and Würth Industrie Service GmbH.

With the supplier parts catalogue on the CADENAS download portal PARTcommunity, Thomas Warburton is on the cutting-edge and, in relation to customer service, one step ahead of the competition.

The CAD data is available in native and neutral formats allowing files to be easily imported in any CAD system with a simple click of the mouse!

## Your Exclusive Advantages

- High quality CAD data, which can be used in any CAD system
- Thomas Warburton Products at a glance
- Continual part updates
- Best service in the areas of purchasing and processing your orders
- Time savings during construction & design
- Unlimited availability 24 hours per day / 365 days per year!

... and it's for FREE!!

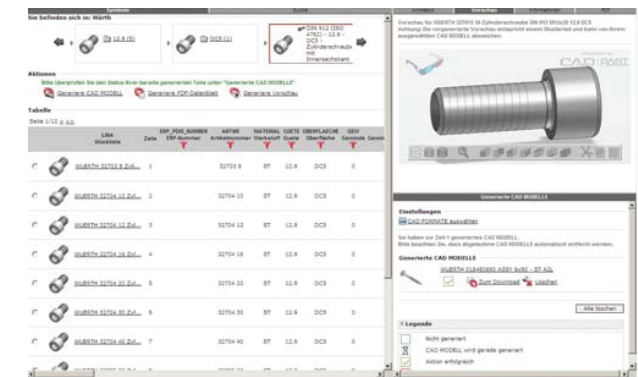

# CAD Data per Mouse Click on PARTcommunity

**Number of Users** Over 2.7 million  
**Number of downloaded parts** Over 55 million

**PARTcommunity** is the **CADENAS online portal** for downloading illustrations of 3D components offering CAD data from more than 400 manufacturers and is one of the most frequently visited component internet portals in the world.

**Easily download** and import CAD data from PARTcommunity into your constructions.
